The Secretary of the nation" of it to the government. The Secretary of the Treasury answered by inquiring "the cost of the repairs needed and what additional expense would be incurred in the establishment of such an Hospital ?" We are not in possession of the answer of the Collector, but believe that the entire expense for repairs would not have exceeded \$250, and we know that a keeper could have been obtained for \$250 per annum. But was it not presumption in us to suppose that such an expenditure would be authorized or recommended by the Treasury Department when there was "already a Hospital in N. Carolina" which cost the government when finished \$10,000, and while unfinished Hospitals of the West costing \$50,000, had yet to be
